Forecast of the onoff AG for 2021 - earnings outlook 2022

Towards the end of the year, the onoff AG expects a net profit of EUR 300k after tax based on sales of well over EUR 20m compared to the previous year's net loss of minus EUR 690k (with a previous year's figure of just under EUR 26m). The result already includes costs of approximately EUR 500 thousand for the development of the InfoCarrier® BOXI, a multifunctional interface, as well as the expansion of competencies in the area of digital engineering that has been initiated. From the point of view of the onoff AG, a doubling of the annual net profit with a planned turnover of approx. 23 million EUR is a realistic order of magnitude for the following year.

onoff Aktiengesellschaft, November 25th, 2021 Wunstorf

About onoff AG:

As a system-independent partner for automation and IT, we develop precisely customized solutions for process automation, digitalization and artificial intelligence. Our sector focus is on pharmaceuticals, foods, chemicals, water/wastewater and natural gas. However, our customized, future-oriented solutions are also increasingly in demand in other sectors, such as retail.

More than 190 employees work at nine different locations in Germany and abroad, successfully implementing local customer projects in the context of Smart Industry. We tap potentials that make processes not only more efficient but also safer, cost-effective and easier to operate. In doing so, we bring no less than 30 years of expertise and experience to the table. Three core areas form the heart of our company: onoff engineering gmbh, onoff it-solutions gmbh and onoff automation services.
