New Körber partner program: SpiraTec Group enters "Silver Tier" level

Speyer, November 30, 2023 - In the newly established "PAS-X Integrator" service partner program of the Körber Business Area Pharma, SpiraTec AG and its subsidiary onoff GmbH are one of the first partners to start directly at the "Silver Tier" level. The selected partner companies will become PAS-X experts and gain access to specific services and software solutions within the Körber ecosystem.

onoff has been a PAS-X Endorsed Service Partner since 2017 and has a high level of expertise and system knowledge of PAS-X [MES](#) and the integration of subordinate systems with PAS-X MES. SpiraTec AG has a long history of cooperation with Körber and has been in the partnership program since 2020. Following the merger of the two companies, the SpiraTec Group is joining forces to position itself as an ideal partner for Körber. The range of partner services extends from targeted consulting services to independent PAS-X implementation projects as a system integrator. Customers also benefit from many years of expertise in the field of process automation and comprehensive knowledge of interfaces to adjacent systems.

Dr. Daniel Olivotti, Partner Manager for the SpiraTec Group, welcomes the partnership with Körber: "Both SpiraTec and onoff have many years of project experience in the use of PAS-X in the pharmaceutical industry. As one of the leading MES (Manufacturing Execution Systems), we use it successfully with well-known pharmaceutical customers and have therefore been cooperating closely with Körber for many years. We are particularly pleased that we have been able to support the new partner program right from the start and are strengthening our partnership once again." The SpiraTec Group offers its customers holistic automation and IT concepts as well as comprehensive implementation of PAS-X projects. This enables pharmaceutical companies to digitalize their production processes and network production data.

Reiner Kühl, Senior Principal Service Partners Software EMEA, confirms: "The exchange of experience within our partner program is also crucial for us. We are delighted to have such an experienced and long-standing partner at Silver Tier level on board with the SpiraTec Group. Customers also benefit: They can ensure smooth production, quickly resolve manufacturing problems and get the most out of their production process."

About SpiraTec AG:

SpiraTec AG is a globally active company for industrial engineering and solutions in the process industry with core competencies in the planning, construction and support of process engineering production plants.

The SpiraTec Group has over 600 employees at more than 30 locations in Germany, Italy, Austria and the USA, providing customers with industrial planning and high-tech solutions in the areas of digital transformation, engineering, robotics services, automation and IT. Its customer base includes well-known companies from the process and manufacturing industries in various sectors such as (bio)pharmaceuticals, food, chemicals, petrochemicals, steel, semiconductors and automotive.

About Körber:

We are Körber - an international technology group with more than 12,000 employees at over 100 locations worldwide and a common goal: We turn entrepreneurial thinking into customer success and shape technological change. In the Business Areas Digital, Pharma, Supply Chain and Technologies, we offer products, solutions and services that inspire. We respond quickly to customer needs, implement ideas seamlessly and create added value for our customers with our innovations. In doing so, we are increasingly building on ecosystems that solve the challenges of today and tomorrow. Körber AG is the holding company of the Körber Group.

In the Körber Business Area Pharma, we make the decisive difference along the entire pharma value chain by offering a unique portfolio of integrated solutions. With our software solutions, we support pharmaceutical manufacturers in the digitalization of their pharma, biotech and cell & gene therapy production. The Werum PAS-X MES Suite is the world's leading Manufacturing Execution System for pharma, biotech and cell & gene therapy. Our Werum PAS-X Savvy Suite accelerates product commercialization through data analytics and AI solutions and uncovers hidden business value. Further information at: www.koerber-pharma.com
